- Refugee Support Funding from Woking Borough Council to provide welfare benefit advice to support the Syrian and Refugee community and to provide generalist advice to the wider refugee community.

Governed by a Board of 9 trustees, we have a highly skilled workforce to support the organisation. This includes 14 paid staff, and more than 50 volunteers.

Our generalist advice service is provided by volunteers who carry out reception and administrative duties, give information and advice and have research and campaign roles and are managed and supported by paid staff. We also have paid caseworkers in the areas of welfare benefits and housing.

Woking is often considered to be an affluent area with high levels of employment and rates of home ownership, however there are significant pockets of deprivation across the borough and our priority is to support the most vulnerable in our community. The main enquiry areas of welfare benefits, debt and housing continue to be the issues that most of our clients need help with.

The role

This is a joint venture between Citizens Advice Woking (CAW) and i-access, the drug and alcohol community service which offers specialist assessment, support, and treatment to people in Surrey who want help with their drug and/or alcohol use.

Working with i-access service users, either remotely or in person, the role is to provide information, advice, and casework in all areas of generalist advice, but particularly in the areas of welfare benefits, debt, and housing.

Service users will be referred by i-access staff to the Generalist Adviser (GA) to receive the support and advice they need to deal with the problems they are facing. This will be delivered by telephone, digital, virtual or face to face channels. The GA will be expected to thoroughly explore the service user's situation, carry out the appropriate research, provide the service user with the appropriate options and where necessary to support the service user to move forward and stabilise their position.

Liaison with i-access staff is essential prior, during and after the GA's contact with the service user. This will be both verbal and written communication and the ability to provide written reports and keep data will be an essential part of the role.

The GA will be part of the team at CA Woking and will need to know what support and additional services can be provided by the paid team of caseworkers at CAW but also at the local Citizens Advice office closest to the service users home address in the event a referral is needed.

The GA will need to travel to the three i-access locations in Guildford, Redhill, and Chertsey as well as to CAW's office main office. The GA will also need the ability to work remotely from their home, which will require a confidential work space and reliable Wi-Fi.
